PROFILE

- Enthusiastic and creative Systems Architect, Software Engineer, and Project Manager with a passion for technology
- Intuitive team player and flexible worker with a keen attention to detail and proven leadership skills
- Strong believer and active follower of the 'Life Long Learner' philosophy

EXPERIENCE

Independent Contractor, Aug. 2011 – Jan. 2012

[Elevation, Inc.](#)

- Project Manager and Senior Web Developer working on contract for [Motorola Mobility, Inc.](#)
- Contracted by Elevation to handle a large corporate account with Motorola Mobility to revamp their [global website](#)
- Interfaced directly with key stakeholders at Motorola and guided development and design efforts of Elevation's team.
- Core technologies used were C#, HTML5, CSS3, jQuery, JavaScript, Photoshop, Visual Studio 2010, SQL Server 2008.

Software Developer / Consultant, July 2008 – Current

[J.T. Liautaud and Associates, LLC](#)

- For a more detailed list of projects I've been working on, please see the [Work Samples](#) section of my portfolio
- Consultant and Lead Developer for [Loquate.tv](#), a nonprofit organization: WordPress, streaming media, video editing
- Consultant for [Tree Fort Financial](#): proprietary financial software engineer, web developer, and network engineer
- Consultant for [Tahoe Bleu Wave](#): web development (PHP, MySQL), Search Engine Optimization (SEO)
- Consultant for [ClickStream Technologies](#): web and database (SQL Server) development; added features (ASP.NET) and reports (SQL Server Reporting Services) to web portal, optimized data pipeline for scalability and performance, installed and configured RAID disk arrays, built first version of the [ClickInsight Enterprise Appliance](#)

Lead Systems Architect / Software Engineer, June 2006 – July 2008

[ClickStream Technologies](#)

- Directed the technical operations of a software startup, reporting directly to the CEO
- Managed in-house technical staff, as well as outsourced consultants, working on a project-by-project basis
- Interfaced with several software industry leaders on a regular basis, including [Microsoft Corp](#), [Adobe Systems](#), and [Hewlett-Packard](#), acting as lead developer and project manager for client research projects
- Led development effort responsible for adding new features to a multi-user, desktop data collection agent responsible for uploading information to the ClickStream server farm, growing at a rate of more than 6 million new records daily
- Designed, developed, and maintained the [ClickStream Data Pipeline](#); a high-availability, scalable, multi-tier solution; built on SQL Server, with real-time and historical reporting capabilities hosted from a secure .NET web application

Software Engineer, March 2002 – March 2006

[Service Payment Plan, Inc.](#)

- Helped lead a team of developers and consultants through the design, development, and maintenance phases of a mission-critical financial system based on ASP, JavaScript, SQL Server, and Crystal Reports
- Developed and secured a web application to process over 40,000 electronic payments per month
- Researched and solved system bottlenecks resulting in performance gains of over 300%
- Implemented a paperless office solution to integrate scanning software with homegrown system
- Technical specialist to marketing team as architect, developer, and graphic artist of dynamic, data-driven marketing materials - design work was accomplished using the Adobe Creative Suite
